

Accelerate: **The New Esprit E-Series**

ESPRIT E55/E65[™]

4- to 32-Zone
Security Systems

Reliable, cost-effective security combined with cutting edge technology.

ESPRIT /// E55 / 65™

STAY D™

Go with simpler and safer living. The revolutionary StayD feature represents a completely reversed philosophy that resolves all issues with any security system made today. A StayD system is always armed and only partly disarmed when entering or exiting a site, which is the opposite of a common security system that's always disarmed and needs to be armed to provide protection.

Wireless Communications

Go cellular. Your system can send you a text message (SMS) or a pre-recorded voice message on up to eight telephone numbers to notify you of system events, such as arming/disarming, alarms and troubles. You can also remotely control your system (e.g. arm/disarm) from any phone by sending a text message (SMS) or by using a voice-guided menu.

Internet Access

Go high-tech and receive notifications by e-mail. For example, get a message as soon as your kids get home from school. Also, arm/disarm and monitor your security system through a web browser from anywhere in the world.

Three Arming Levels

Get three different levels of security:

- Arm: Leave your home and maximize your security.
- Sleep: Protect your main floor while you sleep in full security upstairs.
- Stay: Protect your perimeter while at home with the children.

Convenience

Choose convenience. Get up to 32 points of protection for complete security. Start small and expand your security as your needs grow. Also, arm or disarm your system with a single touch and our exclusive backlit keys tell you instantly where something is detected. With Esprit E-Series keypads, there is no scrolling, just straightforward answers.
